

Other Animals

Blancmange

There is a feeling in the air
Affecting every stranger
People are moving
There are distant signs out of danger
Other animals move from the city
Shift to automatic, leaving their houses

Life
We're walking on virgin ground
Life
Has it's ups and downs
Life
We're laughing over our shoulder
Life
Walking on borderlines

We walk on subjects
That bores and affects us
And scores and rejects us
Where other animals move
North is south and east, east knows best

Watch other animals move from the cities
Watch other animals hand in their coupons

I'm leaving my home
He's leaving his coat
She's leaving her job
For better for worse
I'm filing a claim
Stating my name staking a claim
Point out main aim

East knows best
North is south
