

Sometimes you wonder
Sometimes you stop to think
Of beswick horses and the like
What could have been
What might have made you better
What might not have been let go, let go
With all this weight you can't wait
It's not all on your shoulders (you feel now)
You know you can let go (let go now)
You know you can let go (let go now)
Let go now
(Let go now)
Let go now

What have you been waiting for
As every moment passes
Shouldn't you grab hold with all your strength
And never let it go now

The carousel goes round and round
Should you hold on or let go
Let go now
Happy shoppers come and go
Migrating birds have my view (let go now)
Have a pleasant trip (let go now)
Glad you're not here (let go now)
(Let go now)
(Let go now)
(Let go now)
