

See The Train

Blancmange

Yes, that's why I'm feeling blue
Yes, that's just because of you
I'm through with you
Yes, I'm through with you
But that don't stop me feeling blue

I held up the skies you pulled down
And that's why I wear a frown
Why am I still feeling blue?
Maybe 'cause I'm through with you

You said you loved me and I thought it true
Now that's why I'm through with you
You said you loved me and you were unkind
And that's why I've changed my mind

See the train going down the track
Wonder why I feel so blue?
The train goes faster down the line
Makes me think so much of you

See the train go down the track
I started running but I pulled back
I see them crying. Won't you see them cry?
I know you won't be back again

See the train go down the track
People scream and see the fire
See the train go off the track
Now I know you won't be back

People scream and people cry
Whistle blowing way down the line
See them crying. Won't you hear them cry?
I lost your love and now I must die
