

Blank page stuck in your face
Roads clear no delay
Straight line, don't deviate
What's holding you back making you late?
No pressure everything's fine
I checked all the gauges, it's in the design
What's up? Who has got on your mind?
What's holding you back? What did you find?
What did you find? What did you find?
What did you find? Tell me what did you find?
What did you find? What did you find?
What did you find?

Blank page blinding your thoughts
Lines down visually nought
Straight line, don't deviate
What's holding you back making you late?
No pressure everything's fine
I checked all the gauges, it's in the design
What's up? And who has got on your back?
What's holding you down? What do you lack?
What did you find? What did you find?
What did you find? Tell me what did you find?
What did you find? What did you find?
What did you find? What did you find?
What did you find?

Who's holding you down? Got on your back?
What did you find? It wasn't defined
