

What's Your Name

Blancmange

What's your name
Don't come in
What's your name
Speak to me
Through telepathy
Or speak to me
Through the letterbox
Or speak to me
Through mottled glass
I will learn to lip read
Or maybe I will pick up semaphore
Speak to me
But what's your name (what's your name)
What's your name (what's your name)
What's your name (what's your name)

What's your name (what's your name)
What's your name (what's your name)
What's your name (what's your name)
What's your name (what's your name)

What's your name
Don't come in
What's your name
Speak to me
Through mottled glass
I will learn to lip read
Or maybe I will pick up semaphore
Speak to me
But what's your name (what's your name)
But what's your name (what's your name)
But what's your name
But what's your name (what's your name)
But what's your name (what's your name)
What's your name (what's your name)
