

Back 2 Basics

Blanco Brown

Remember when I'd bring you roses for no reason
Just cause it was Tuesday evening
We would skip work just so we could sleep in
Pretend it was the weekend
Spending time it never got old
But seasons change and time takes it toll

Oh I
I just wanna get back to us
No lie
No we ain't any less in love
And even though the fires faded
Girl it ain't too late to make it right
And ain't no need to complicate the love we're making
What ya say tonight
We get back to basics

Remember when we popped a bottle of the cheap stuff
Stayed up and tangled all the sheets up
I swear we still got so much love between us
Honest to God and we don't need much
To bring that young loving back to life

Oh I
I just wanna get back to us
No lie
No we ain't any less in love
And even though the fires faded
Girl it ain't too late to make it right
And ain't no need to complicate the love we're making
What ya say tonight
We get back to basics
Ohhhh back to basics

Oh I
I just wanna get back to us
No lie
No we ain't any less in love
And even though the fires faded
Girl it ain't too late to make it right
And ain't no need to complicate the love we're making
What ya say tonight
We get back to basics
Ohhhh back to basics
