

# Snapshot

Blanco Brown

Remember those days when it was so complicated  
When we were so naive before we got so damn jaded  
Everything was simple then  
Back when we were innocent

I remember everything was bright  
Now it all just looks so black and white  
So I close the door and close my eyes

I keep a snapshot in my mind  
Takes me back in time, back in time  
Back to the used to be's  
Back to the you and I, you and I's  
Oh, we've got forever  
In my snapshot

Remember those times when we had all those times together  
When all we knew about love is that our love would last forever  
Everything was magical  
Before it all got cynical

Why did everything just have to change?  
Sometimes I just wanna hide away  
Turn the world, I'll turn back the page

I keep a snapshot in my mind  
Takes me back in time, back in time  
Back to the used to be's  
Back to the you and I, you and I's  
Oh, we've got forever  
In my snapshot

I keep a snapshot in my mind  
Takes me back in time, back in time  
Now I'm back to you again  
Like the time never went by  
You're still here and you're still mine  
Can't be that way, so I'll freeze the frame  
In my snapshot

I keep a snapshot in my mind  
Takes me back in time, back in time  
Back to the used to be's  
Back to the you and I, you and I's  
Oh, we've got forever  
In my snapshot  
I keep a snapshot in my mind  
Takes me back in time, back in time  
Back to the used to be's  
Back to the you and I, you and I's  
Oh, we've got forever  
In my snapshot

I keep a snapshot in my mind  
Takes me back in time, back in time  
Back to the you and me's  
Back to the you and I

Mm
