

## Cornered Tiger

Blanco White

I'm set loose on a ray of light  
If you follow me down  
Do you dare  
Make your move when the time is right?  
'Cause when we figure it out  
We're coming on over

Ain't no fire to the sun  
If you feel imprisoned  
Like the thoughts inside your head  
Don't bait the cornered tiger  
Only thing that's moving  
Like the walls are caving in

I lose count of the days and nights  
Too long under the ground  
To care  
For waking dreams of the world outside  
But when the river breaks out  
I'm coming on over

Ain't no fire to the sun  
If you feel imprisoned  
Like the thoughts inside your head  
Don't bait the cornered tiger  
Only thing that's moving  
Like the walls are caving in

Who will save me now?  
If I could live that time again  
Won't you save me now?  
If I could live that time again
