

## On the Other Side

Blanco White

To the world we're scattered  
On a trail that was never seen twice  
And so we walk on while we can  
The children of another life  
Now they say our time is up  
There's a race to the summits cold heights  
You got to work to play the game  
Not knowing when the end is in sight

The sun hides on the other side until you feel it  
Raise a distant call  
So for now it's only a long night, can't go on  
The sun hides on the other side until you feel it  
Raise a distant call  
So for now it's only a long night  
You can't go on and on

Over town the flags are up  
Every soul says they're fighting the good fight  
Paradox too plain to see  
But only when the well runs dry  
You tell me I can't stand it  
All the pack says you better hold tight  
Cause what you take ain't yours to keep  
When there's nothing that don't have a price, no

The sun hides on the other side until you feel it  
Raise a distant call  
So for now it's only a long night, can't go on  
The sun hides on the other side until you feel it  
Raise a distant call  
So for now it's only a long night  
You can't go on and on

Is there a world out there, I'm dreaming of  
Is there a world out there, I'm dreaming of  
Is there a world out there, I'm dreaming of

The sun hides on the other side until you feel it  
Raise a distant cold  
So for now it's only a long night, can't go on  
The sun hides on the other side until you feel it  
Raise a distant cold  
So for now it's only a long night  
You can't go on and on
