

I feel like Akaza
I just can't show anyone weakness
Took that stance, they say I'm an activist
Like Bella Hadid is
Hunt me down, they thought I was gone this year
But I'm back like Freecss
I can't tell her my insecurities
I can't show her my deepest secrets

Sword: Excalibur
They wanna tan abroad, like Málaga
Sliding, coulda saw red like Carragher
Whistling brought that ref, that's Kavanaugh
Excess stamina, ran from jakes
I caught that fire and wind like Avatar
Feeling my vitality's down
I'm playing with areola like Bournemouth's manager
Demon ranking
Cold now, my fever's tanking, fire inside me
Mansion, castle, party
I'm chilling with sinners, so they won't invite me
H1B visa, he's flying it overseas, no ice, consignee
Ain't been jail in a few, sobriety
'Cause he got rid of his blade like Fergie
Breathe technique, my form got better, it's flaming
Booth, then flight, then shows, then booth
That's vigorous training
Not like 007
I want it stirred, not shaken
Caretaker
I took charges on a Spur like Mason

I feel like Akaza
I just can't show anyone weakness
Took that stance, they say I'm an activist
Like Bella Hadid is
Hunt me down, they thought I was gone this year
But I'm back like Freecss
I can't tell her my insecurities
I can't show her my deepest secrets

I feel like Akaza
I just can't show anyone weakness
Took that stance, they say I'm an activist
Like Bella Hadid is
Hunt me down, they thought I was gone this year
But I'm back like Freecss
I can't tell her my insecurities
I can't show her my deepest secrets

I don't like the attention
Telling me shine, I'll try, like Tengen
Truth is free, but the lies? Expensive
Kick my doors, 'cause the crime's intensive
Window tinted: 5 percent
And the shades are 8 percent, are my eyes protected?
Sydney, the one that I'm cybersexing

Cyberflexing, my reflection
Breathe technique, my form got better, it's flaming
Booth, then flight, then shows, then booth
That's vigorous training
Not like 007
I want it stirred, not shaken
Caretaker
I took charges on a Spur like Mason

I feel like Akaza
I just can't show anyone weakness
Took that stance, they say I'm an activist
Like Bella Hadid is
Hunt me down, they thought I was gone this year
But I'm back like Freecss
I can't tell her my insecurities
