

Brilliant Mind III

Blanco

Disorientated and should've just rested
Called your phone when I should've just texted
B-b-block down, should've just Tetris
Retail therapy, should've invested
Diamonds dance, they should've been tested
Follow his eyes, you can see the intention
Tension, the G Tech slide with a Jensen
Gated chest with aluminium fencin'
Nay just hopped it, Tae then hopped it
Let me tell you the day a synopsis
Found me the meanin' of life when he lost it
Scorpion kick on the day they crossed it
Doxin' revealin' myself, I'm boxed in
Venomous action toxic
Batman step with the power of cosmic
Strike that one, I'm Kostic

Smile, don't cry, I pour Henny inside
It's snakes in the grass, reptilian lies
Fake friends weren't there, this really implies
I lost it, gained the Brazilian vibes
This quirky jawn le million slide
Take civilian lives
She gave me the Isaac Newton Law
That brain, you know you got a brilliant mind

Yo, you know that she doing it right
The way she give brain, she got brilliant mind
KZ in the bando and he serving Light
And he got Dark
Shaking A's like Rosa Parks
It bites and it just don't bark
On the net they move all brave
But live in the flesh watch them boy dance
Evident that they ain't got not heart
Elegant the way his head got - (Bullet)
I'm famous, but I'm still riding charge
You know that I'm with it, there's no need to ask
No face no case
And I ain't tryna catch me a case so you know I wear me a mask
In the party, you know I don't dance
Free S, free Kiz, free all of my dawgs

That's 10 like Sancho's enemy
Wanna go Hakkasan too not Tennessee
... was belling me, girls was telling me
I'll just pout that Coke and Hennesy
Chocolate darling style that legacy
Coldest
DDT that was, Don't Do Ticks
I was young, now I'm like Hulk Holgan

Smile, don't cry, I pour Henny inside
It's snakes in the grass, reptilian lies
Fake friends weren't there, this really implies
I lost it, gained the Brazilian vibes
This quirky jawn le million slide

Take civilian lives
She gave me the Isaac Newton Law
That brain, you know you got a brilliant mind
