

Protagonist

Blanco

You think you're the hero too, I'll be the antagonist
Had my Ivorian Doll before I heard Miss R Fabulous
They think this life that I live is so glamorous
Even on Fergie time they ain't winnin'
Protagonist plot line is always defeatin' the villains

Say that you heard this line, it's repetitive
I'm not a part of the game, I'm ahead of it
Caught him and cornered the yute, made him header it
I'm at the peak, we gon' send him to Everest
She wanna pay for the date, I believe I'm a feminist
A-Art is subjective, I like a pretty impressionist
Don't lie, want neck, come give me that close line
I'm on the edge, 2Litre and Slow Ride
They wanna hop on the road for the fun of it
Havin' him broken down on the roadside
Covered in blood, do the ritual in no time
I want the rites of passage
Fill-Fill it with petrol
Drive to the country side, we gon' turn it to ashes
Fillin' my inbox with beats, take me out of the rota
I'm at the table, flam is a floater, never had faith in Paloma
I've-I've got a rainbow girl, made her juggle the ball and then do th
e rabona
Palpitations, give them a heart attack when I tell 'em it's over

Yo

Man of the hour, false start, Asafa Powell
Listen to Cleo when I'm in the shower, it's soulful
Send-Send the accountant the bill of whatever the cost will cover the
total
Cover the price of the tizzy, my nigga will cover the postals
Reven'-Revenge comes in full circle, the timin' immaculate
Label side was inadequate, rally for pay rise, I be an advocate
Two nil on the night and we drawing the score on aggregate
Want contact with a feature fee, I'ma send it to management
