

Regime

Blanco

Doctrinate
Hotel is in proximate
I'm still in my proxy state
Been animated – a fox in space
I like being the shit – it can constipate
Got rid of clothes, I'm a hostage
Money? I lost it – I had to concentrate
I'm going up at a constant rate
I'm still in the estate – I'm a consulate

Regime deep
ANPR, not an APB
Orangutan and ape
Full of propaganda, like a state TV
Snakes gossiping – though if you hate me, speak
Elevators – I got lazy feet
Labels talk while paying me P's
White complex – can they save me? Save me, please

Animated
War crimes coming exaggerated
I see get-rich schemes, then I'm salivating
And the naval boat isn't navigating
Murky with the alligators
And it's not the stairs, it's the elevators
Just like the U.S., they wanna impose sanctions
LOL – Damson? That's not validated
Soldiers die without purpose – peace ain't on Earth, it's beyond the clouds
I'm done offering all this service – he can't roll 'cause he ain't allowed
It's up, but the energy's down
Disinformation – they aim for the mouth
They wanna coup d'état on the state
Like Chile – they coup d'état in the South

Decolonisation
I'm on a yacht boat, migrating
Sorry – I'm back from a hiatus
Couldn't keep his girl – she was high maintenance
Tryna get rich quick, but the time's taken

Donations - like I'm Prime Reagan
Tryna find that boy - like the Fire Nation
And they spin in my circle, gyrating
Rumors fade, but the facts just stay - I don't care what you say about me
My girl don't like some of the bullshit - man, she don't play about me
Mutiny on the estate - backstabbed, seen the betray around me
Only up - no way around me
Black or White, but it's grey around me
