

Son Of A Refugee

Blanco

Son of a refugee
Had holes in my boat when they rescued me
Glee an expected piece
I'm g.o.d so I'm blessed indeed
Joel he'll shoot embid
In court tryna dribble that question please
Examination cross me
Escaping the war in my chest so deep

Inner peace can I finally find it
Secret like yk osiric
Argument type stop typing
Penalty so immigration dive in
Positive o blood type is
Love but I don't take blinded kindness
Chain with a face blood diamond
I think that the teachings got mis guided

Fleeing a war I'm escaping mine
Night terrors at breakfast time
No games when the reckless slide
No thanks when they kept us dry
Stop watch when I walk transcending time
Ideology's don't realign
For your thinking you might get bined
Chest in the air no bench incline

Son of a part worker benefit earner
Dreams that I had got murdered
Sound from the heart no murmur
Loading like psn's old server
Family pride pursue this further
Cah they gave me a roof and nurtured
Now I'm living out qway Berkshire
Audio heart no range when I hertz her

Displaced people
Wars for the evil
Now they got wars on a sequel
Nobody wins so they equal
Thought that humanity crimes were illegal
Brighton pack like the seagulls
Don't go jail for the girls and jeetful
Tryna get in a page of Der Spiegel
Swords and shields no ties to medieval

The battle of self
Pops always battling health

Pound for pound yeah I know I'm the coldest even outside gonna carry my belt
s
Hot right now its your bitch that melts
Handle the shit I was dealt
Creep and mad ting and hit your chapel
Bally on city of god it was me
