

Trustfall

Blanco

Lean on me, she wanna trust fall
She wanna wrestle, ain't having a kid, ultimate muscle
Wound in the heart, I was fighting her off for Cupid's arrow, I call that a struggle
Running from bacon, hop into muddy and dirty puddles
Shake that nyash, emerge from the rubble, that ripple, effective
2 out of 10 got caught on the ride that day, you say your detectives
I'm in her memories, watching the best bits, I miss you
Called your phone when I should've just texted, you ain't resolving this issue
They wanna snap this spot, baby, I'm a fugitive
Don't be telling a soul, this chance is lucrative
Explain that back, that sounds so counterintuitive
Freeing from fear, I abandoned my heart, and this shit is assuasive
Damn, suicide watch, he's panicking
Block been hot all my life, now it's ambient, I came out a champion
Risky died, and Latz did die, they think it's pedant, it's more a medallion
Trenches gather my thoughts, I'll ring the battalion
H-heartbreak, getting it two ways
Slanging that panda and talking to Uguway
I wanna exit, I feel like the UK
Jiggle bell, I don't listen to Bublé, I listen to missiles
Done so many shows while I was away and I feel like I missed out
B-be all and end all, it's the silliest cycle
Bleeding heart, I call a menstrual
I'm on the wing, I ain't needing a RedBull
I need them door keys, walkie-talking on talkies
They wanna Drake, just singing like Aubrey, parallel park that poorly
Block combustible, I know the fee is adjustable
Handle broken, still it is functional
Don't have a clue, they're expungeable
Crying in pain, it's mental, insufferable
Tryna send them up in the clouds, that shit ain't recoverable
Back up, counting it, seeing my stack up
Straight from horse's mouth, I'm talking them down when I'm putting my plaque up
Bro's on moving boxes, left it a mess when I told him to pack up
Playing with drums, shake that one like maracas

I tried my luck, I gave my all
You saw me love, I learned to fall
And thought it hurts, don't beat my fears
I wasted tears on you
Oh, leave me with what I've got
You'll find what you're searching for
Do you still run so far?

Oh, oh-oh, oh-oh
Oh-oh-oh
Oh-oh-oh-oh-oh
Ooh-ooh-ooh-ooh

I just wanted to love you, to love you, to love you
I just wanted to love you, to love you, to love you
I just wanted to love you, to love you, to love you
I just wanted to love you, to love you, to love you
I just wanted to love you, to love you, to love you

(Trust fall, but I called your flaws, you can tell me nice if you want my love)
I just wanted to love you, to love you, to love you
(Stand tall when I bite my tongue, tell me when you, tell me when you want my love)
I just wanted to love you, to love you, to love you
(Trust fall, but I called your flaws, you can tell me nice if you want my love)
I just wanted to love you, to love you, to love you
(Stand tall when I bite my tongue, tell me when you, tell me when you want my love)
I just wanted to-
