

## Bittersweet

Blanks

Take me out, make me believe that  
We could watch a million sunsets  
Hug me with your words  
Before you go and I get hurt  
Summer nights, better together  
We both act like it's forever  
Oh it's bittersweet  
But we know this is what we need

Here we go  
I got myself caught up again in  
Love so bittersweet

Bittersweet  
Caught myself in love again  
Oh no, bittersweet  
Caught myself in love again  
Oh no, bittersweet

Hold me a little closer  
Whisper things you wouldn't ever say if you were sober  
Why don't we just plan a trip to Paris in October  
We don't have to end this when the summer days are over, no oh  
So tell me how you're feeling  
Tell me all your fears and things you secretly believe in  
When's the last time you fell in love?  
Baby, maybe I could be enough

Here we go  
I got myself caught up again in  
Love so bittersweet

Bittersweet  
Caught myself in love again  
Oh no, bittersweet  
Caught myself in love again  
Oh no, bittersweet

Caught myself in love again  
Oh no, bittersweet
