Chasing After Memories

Blanks

Driving down the road, don't know where we're going
A summer filled with hope, and memories so golden

There's adventure 'round the corner
I can feel the sun is getting warmer

That's how it goes, into the sunset
Out of this town, ain't looking back
And we're chasing after memories
Make the most of freedom and pleasure
Nothing will ever be the same
And we're chasing after memories

Strumming on old strings, do you still remember?
How we used to sing, "This will be forever"

And there's adventure 'round the corner
I can feel the sun is getting warmer

That's how it goes, into the sunset
Out of this town, ain't looking back
And we're chasing after memories
Make the most of freedom and pleasure
Nothing will ever be the same
And we're chasing after memories

If you'd ask me now, ask me 'bout that summer
Felt just like a dream, unlike any other

And I've been hanging 'round that corner
But the days are slowly growing shorter

That's how it goes, I'm watching the sunset
Back in the town that we once left
And I'm chasing after memories
Made the most of freedom and pleasure
But it will never be the same
And we're chasing after memories

So we go, into the sunset
Out of this town, ain't looking back
And we're chasing after memories
Make the most of freedom and pleasure
Nothing will ever be the same
And we're chasing after memories
