

# Let's Get Lost

## Blanks

I've been reading all the papers  
Everything is going down (going down), uh  
Got this feeling like I'm waiting for  
Someone like you to come around (come around), uh

Let's get lost, lose our phones and get away from here  
See if we can make it to another atmosphere  
Let's get high, let's get low, let's get lost tonight  
'Cause only you can make it seem like everything's alright

Baby got me like, "woah, yeah"  
And let's get lost tonight  
Oh we're singing like, "woah, yeah"  
You make things alright, uh

I've been watching television  
Everything is going down (going down), uh  
Gotta make a bad decision  
Do I wanna stay around? (Stay around) Nah

Let's get lost, lose our phones and get away from here  
See if we can make it to another atmosphere  
Let's get high, let's get low, let's get lost tonight  
'Cause only you can make it seem like everything's alright

Baby got me like, "woah, yeah"  
And let's get lost tonight  
Oh we're singing like, "woah, yeah"  
You make things alright, uh  
Woah, yeah  
Woah, yeah

Let's get lost, lose our phones and get away from here  
See if we can make it to another atmosphere  
Let's get high, let's get low, let's get lost tonight  
'Cause only you can make it seem like everything's alright

Baby got me like, "woah, yeah"  
And let's get lost tonight  
Oh we're singing like, "woah, yeah"  
You make things alright  
Baby got me like, "woah, yeah"  
And let's get lost tonight  
Oh we're singing like, "woah, yeah"
