

# Nobody Knows

## Blanks

I woke up with a headache I been thinking too much  
And there's a feeling in my stomach and I can't shake it off  
I'm hoping for a swift recovery, I'm pushing my luck  
Oh, I got nowhere to be, why am I still in a rush?

I'm tryna come up with a thought that I ain't already had  
Why am I smiling at my neighbors while I'm actually sad?  
I wanna, play with legos and draw a map  
Have fun like that, maybe that'll bring me back

I thought when you get older  
You start to understand  
Understand the way the world works  
And find out what's the plan  
But I guess there's not a moment  
It all falls into place  
Cause everybody's talking  
But they're walking different ways

I got a PSA for everybody say it with me  
We going indie, cause all the majors way to clingy  
Lo and behold, when I get in the zone  
Philosopher's stone, I'm turning everything into gold

Mister DIY yeah he's running it up  
Cause the reason why isn't making some bucks, oh  
I'm sleep deprived but got dreams enough  
Yeah, I'm feeling alive, I'm feeling the love

I thought when you get older  
You start to understand  
Understand the way the world works  
And find out what's the plan  
But I guess there's not a moment  
It all falls into place  
Cause everybody's talking  
But they're walking different ways

That's how it goes  
Oh, yeah that's just how it goes  
Oh, no-nobody, no-nobody knows

I thought when you get older  
You start to understand  
Understand the way the world works  
And find out what's the plan  
But I guess there's not a moment  
It all falls into place  
Cause everybody's talking  
But they're walking different ways

That's how it goes  
Oh, yeah, that's just how it goes  
Oh, no-nobody, no-nobody knows
