

# Not Scared Anymore

Blanks

I'm ready for a different chapter  
This one's falling short  
I can't take it anymore  
It's time to climb the ladder  
Walk right out that door  
I never took this road before

Nothing's holding me back  
So strike up the band  
I'm ready to play my part

So I get right up  
I leave the couch  
Fill up my lungs and then I shout:  
"I'm not scared anymore"  
And I don't care what people say  
Imma do it anyway  
I'm not scared anymore  
And I am here to stay  
I'm here to stay

I feel it on my shoulders  
Time to lose the weight  
What's the fun in playing safe?  
'Cause when your head takes over  
It drives your heart insane  
It gets so hard to break away, no

Nothing's holding me back (oh)  
So strike up the band (uh oh)  
I'm ready to play my part

So I get right up  
I leave the couch  
Fill up my lungs and then I shout:  
"I'm not scared anymore"  
And I don't care what people say  
Imma do it anyway  
I'm not scared anymore

And I am here to stay  
And I am here to stay

It's time to take control  
I'm thinking now or never  
I'm moving on and letting go

So I get right up  
I leave the couch  
Fill up my lungs and then I shout:  
"I'm not scared anymore"  
And I don't care what people say  
Imma do it anyway  
I'm not scared anymore

And I am here to stay  
And I am here to stay

And I am here to stay
