Ya, I don't think nobody working as hard as  
Me don't even think that if it's comfortable  
Most of my days are in solitude  
Working hard like am a prostitute  
I realize that so many people got talent so what is the difference  
I realize that I gotta put in the work if am going the distance  
Don't be trying to be the best  
Am trying to be the one that's here  
The one that you talk about, the one with music in your ears  
The one that you slam a blunt in your hands  
You put on your snap to bro with the jams  
The brother that popping on charts  
And looking all cool with the dreads  
The one that will never confuse you  
Vocal bullet we just use this  
The brother that never will lose you  
I'll always be here with the music  
Eh eh  
Effort and adoration  
Fire with preparation  
Laugh at his ammunition  
Loses elimination  
But I got the best fellas and every platform ok with the love  
People they got people they're  
Telling congratulations mehn I'm poppin  
People that feel like an extension of me  
People that pissed off that most of my projects  
Was free the reason that I never sleep till it's

5am 5am nah
