She want the zzz late night things, inch deep, that badman size
She like to skrrr in the middle of the night, come give her the badman size
She wanna stay all night she don't want to go back, that badman size

The way the booty bounce, man I no fit compute
That nigga let you go, that man na nimcompoop
Heard you wanna hang with the guy
Well why not grab you a champagne flute
We sip on the finest things, designer rings, just name it and I can do it
Like ice and juice oh
If you wanna get wet, come over I've got the nicest pool
I'm half as tall, but twice as cool
Girl let's ride, You on the bicycle

She want the zzz late night things, inch deep that badman size
She like to skrrr in the middle of the night, come give her the badman size
She wanna stay all night she don't want to go back, that badman size
She in the mood, she calling me boo, boo

Facetime man the pum pum
Then she zoom zoom to my residence
Stroke game heaven sent when I give her the boom boom
Now she wan take picture for who room
C'mon girl keep my name out the newsroom
Everything lowkey like deep voice
Word to Jesus, gossip blog no go see us
Keep your mouth shut, only open it for these nuts
Any bad energy, gimme scissor
But you cool, so I'm keeping you dripping, like you stepping up out the pool
Look at you tripping on the gram, acting a fool
Know you got a man, and I'm cool
As long as you hit me up when you need that badman size
Leave you soaking wet like the boat capsize
I know you drive stick let me take you for a ride
Just know that, it's just one night

She want the badman size
She want the zzz late night things, inch deep, that badman size
She like to skrrr in the middle of the night, come give her the badman size
She wanna stay all night she don't want to go back, that badman size
She in the mood she calling me boo

I got the badman size, pass me the glass and the barman slides
One punch line, one barman dies
Cross that line put them back on ice
Badman wanna give me badman vibes
Give em one black eye
Everybody blackout twice
Badgirl wanna check a badman size
Can't size with eyes
Let a badman slide - in
Let me fill you up, get you so wet baby fill my cup
And if you want a taste, I could fill your guts
But if you get left, then be eating me up
If you got a car, you can pick a gee up
I don't really like to drive that mini z truck
I don't drink vodka but you can really see rocks on the watch

She want the badman size
She want the zzz late night things, inch deep, that badman size
She like to skrrr in the middle of the night, come give her the badman size
