Blaqbonez

I got so many girls in my life  
So many girls in liife  
I've seen so many girls in my life  
So many girls in my liife  
Some of them dey lie die  
Some of them dey fine die  
Some I'd be panshing them till I die  
Omo no go dey sky dive oh  
No go dey loose guard  
So no go dey sky lack  
If you no get, get the raba  
She go just dey chache kala for you and japa

She's nothing but a groupie  
All she got is just her coochie and Gucci  
Always acting bougie  
All she got is just her coochie and bullshit

Yo baby, tell what you want I've been patient  
If you're only for the money just say it  
I can give a little cash but she's set up like a bank  
And all I really ask is don't play me  
'Cause I ain't never lied to you, never did I say that I was wififying you  
Never did I say that I wa-  
You been known what it is, you've been known what it is

So many bad things that me and this girl a done  
She like it when hit like wizzy album  
She say anytime she sit up on me with her bumbum  
She say me so sweet me, me sweeter than drum  
Me like it lowkey when I bring the hammer  
Me call her Shatta Wale, Tattas from Ghana  
She smoking my Havannah see ma soft pyjamas  
My phone on flight mode, I don't want no drama no  
Baby do you fuck with me cause of the doe?  
'Cause the way you're taking that booty down to the floor  
It's unlike any booty I've ever seen before  
This booty don register to vote, e too mature  
Back to matter, Ox on the chorus  
Party don dey scatter, whether she love me or not it don't matter  
Tonight, she gonna treat me better than her father

She's nothing but a groupie  
All she got is just her coochie and Gucci  
Always acting bougie  
All she got is just her coochie and bullshit

All black beamer, It's the zodiac killer  
All these different girls wanna co-star in my  
Movie, thick girls get low far dinner  
Four course meal for slim chicks and gold diggers  
Slim thick chicks get a medium rare  
You see the red in the middle when she throw that bigger  
Ass hang all day like she ain't got a job  
Wanna listen to that Adekunle gold track sinner  
Every time she needs money to fill up the void  
Tell her to kill that noise, we both self employed

Go play with your baby boys, can't play with these set of toys  
Can't buy you those Gucci bags, save it for dem lekki boys  
My life is a movie shot on celluloid  
All my money digital but not in coins  
I don't mind if she's a groupie but keep acting like I'm bougie  
Girl you get your set destroyed

She's nothing but a groupie  
All she got is just her coochie and Gucci  
Always acting bougie  
All she got is just her coochie and bullshit

She attracted to bottle poppers and Benz drivers  
I call her Covid legs, easy to spread the virus  
The sparklers on the bottle gets her mo wetter  
Real niggas know better  
You want her then Moet her  
Her man really in love with a christmas agenda  
She in the streets putting the D in dirty december  
Met her upstairs at paper she hit the DM  
Next day she with Q at W in his BM  
That pussy pricey, high unlikely, that's she's wifey  
Keep her icy, she'll be your side chic  
But she's a hustler and all cheque's cash the same  
Respect the game go head shawty do your thing

So many girls in my life
