

ROAD RUNNERS

Blaqbonez

They say blacky where you go
We've been calling your phone
But you no dey pick up
I say I've been on a low
Looking at my window
But I no dey see foes
I dey pray for my enemies
Make them fit to see road
Cause so many steeze untold
Man been speak on code
Cause if them know them go cast am
How did we find gold
And we still stand strong in the place
Wey them no fit to balance

Blacky where you go
Blacky where you go
Blacky where you go
For many many days
I've been on the road
Biko nyem ego
Blacky where you go
Blacky where you go
Blacky where you go
For many many days
I've been on the road
Biko nyem ego

If you was there when this thing started
You would know whose been a fan
People stay then people run
Rain is falling sun dey shine
Least we try to keep balance
But then we are only humans
I believe in something greater
Than we are so I leave am
