Blaqbonez

Don't move, don't move
We can't leave till the DJ plays that tune, that tune, that tune
Say you wanna slow it down a little?
I can do that too, that too, that too
Want my body stuck on you like a tattoo, tattoo, tattoo
On you like a tattoo

Shot o'clock but I see you looking at me though
It's been a while since I saw you
And all the girls in the room wildin' out
So why he staring at me?
Ooh, all though we're through
If you come any further, you know how it goes
Do you feel the same way now we're here on the floor?
Write it on my body, I don't wanna hear words

Till I say done, done, done, done, done, keep it steady
Ink me, ink me up, draw it on me
Just one more, one more, where you want it?
Ready my love, so me tell 'em, tell 'em

Don't move, don't move
We can't leave till the DJ plays that tune, that tune, that tune
Say you wanna slow it down a little?
I can do that too, that too, that too
Want my body stuck on you like a tattoo, tattoo, tattoo
On you like a tattoo

She make it bounce, she do it like a baller
Still keep it classy like old Motorola
Composure, mad vision, I see her from afar
Micheal Jackson, the way I dey thrill her
Give her big moves like Jagger
But I follow her lead
Body to body like sardine
This one no be thotiana
This one is a hybrid
Of a baddie and a real G
I can tell by the look in your eyes
That you, go take me to paradise
Obahema
I just wan dey by your side
I wanna love you for real

Don't move, don't move
We can't leave till the DJ plays that tune, that tune, that tune
Say you wanna slow it down a little?
I can do that too, that too, that too
Want my body stuck on you like a tattoo, tattoo, tattoo
On you like a tattoo

Do you feel what I'm feeling?
Hold on, hold on
Do you feel what I'm feeling?
Hold on, don't move, don't move
Till I say
