

## Black Electric

Blak Audio

I watch the streets glow before me  
And hear them promise a story  
If only I'll listen  
Oh, I  
Watch the skyscrapers as they melt away  
In the drops I can hear them say

This is the instant; let the gravity lose it's grasp

[Chorus]  
We are rising  
Up from this underground and  
We are blinding with black electric  
As we set this night alight

I heard they say the boy's missing  
Heard they say he's been kissing  
The sparkles of the night  
Oh, I  
Heard they say that he turned the other way  
Heard he's planning along with strays

Who in an instant; let this decadence take its grasp

[chorus]

I heard the streetlights sigh  
I set them all to sleep again  
I deny that it's goodbye  
We'll dance another night

I heard the streetlights sigh  
I set them all to sleep again  
I deny that it's goodbye  
We'll dance another night

Who in an instant; let this decadence take it's grasp

[chorus]
