

# Sharp Teeth

Blaqk Audio

Where would you like it?  
Open your name  
Pharma does wield the blade  
Oh, but you wonder  
Said, "I'd go for anything for a day"

Could I catch cold eyes  
Ah, please release like perfect crime  
Sharp teeth and light sighs  
I know you're into me like a cold knife

Where will we keep you?  
Open your name  
Pharma designed the blade (Blade!)  
Oh, but you wonder  
Oh, I know  
Let me kiss your pretty face

Could I catch cold eyes  
Ah please, release like perfect crime  
Sharp teeth and light sighs  
I know you're into me like a cold knife

Down, down, down  
Sicken in the heights  
I felt you shirk away from the kissing camera eyes  
Sand in sheets for a bloody cheek  
But how the epigone makes you scream was never my, my type of crime

I catch cold eyes  
And pleased release like perfect crime  
Sharp teeth and light sighs  
I'd wear you on my neck like a hard bite  
I cherish (I know you're into me)  
Cold eyes (I know you're into me)  
And pleased release like perfect crime  
Sharp teeth (I know you're into me)  
And light sighs (I know you're into me)  
I know you're into me like a cold knife
