

# The Viles

**Black Audio**

Day may break me  
Daylight like she likes  
She burns through five nights  
When not all is right

And again we meet here  
Dyed black and powdered fair  
On the rays of rotating suns  
And yet we miss everyone

Everyone  
Everyone  
We miss everyone

I will keep it cold and clean  
I will keep you here with me  
Far below, yet not beneath our debasement  
Our debasement

Who will burn who  
As (burning) I (burning) catch (burning) you (burning)  
Burning through seven nights  
When not all is right  
When everything's wrong

I will keep it cold and clean  
I will keep you here with me  
Far below, yet not beneath our debasement  
Our debasement

I will keep you cold and clean  
Keep you, keep you here with me  
Far below, in secrecy our debasement  
Our debasement

Hidin' away with the forgotten sons  
We miss everyone, we miss everyone  
Hidin' from rays of the forsaken sun  
We miss everyone, we miss everyone

But please please, don't tell (Don't tell)  
We miss everyone  
And I won't let on  
That everything, everything  
Everything's wrong

I will keep it cold and clean  
I will keep you here with me  
Far below, yet not beneath our debasement  
Our debasement

I will keep you cold and clean  
Keep you, keep you here with me  
Far below, in secrecy our debasement  
Our debasement, uh

I will keep you with me

I will keep you cold and clean  
Far below, yet not beneath  
Our debasement
