You thought I should see  
I thought it looked fun  
You thought you led me  
I thought I should run  
But wanted to stay  
Stay out of the sun  
You saved me some shade  
I saved you some blood (short, short)

Short hair, tall tale of death  
(Short, short)  
You're making me short, short of breath  
Short hair, long stride for death  
(Short, short)  
You're making me so short of breath

You wanted to play  
I said I was game  
You flipped over death  
To greet you by name  
To speak through the smoke  
Intoning your voice  
Reminded me I always had a choice (short, short)

Short hair, tall tale of death  
(Short, short)  
You're making me short, short of breath  
Short hair, long stride for death  
(Short, short)  
You're making me so short of breath

Only one side  
Only one remains  
Only one side of love

Only one side  
Only one remains  
Only one side of love

One side of love remains the same (short, short)

Short hair, tall tale of death  
(Short, short)  
You're making me short, short of breath  
Short hair, long stride for death  
(Short, short)  
You're making me so short of breath

Short hair, tall tale of death  
(Short, short)  
You're making me, making me, oh  
Short hair, long stride for death  
(Short, short)  
You're making me so short of breath

Only one side  
Only one remains

Only one side of love

Only one side

Only one remains

Only one side of love
