

Until We Meet Again

Blaze Bayley

Take my hand here and now
Make with me this vow
We will find our way back here
Find our way somehow
How can I leave this life if you're not with me?
I would fight to my last breath
To get back to you

We will remember those long summer days
They were good
Think of me on long winter nights
When stories are told

That day of broken hearts
The last day I saw you
It was so cold, we cried so hard
How could this be true?

We will remember those long summer days
They were good
Think of me on long winter nights
When stories are told

Until we meet again
I'll think of you, my friend
Until that bitter end
Until I see your face again
Then my broken heart will mend
Until we meet again
I'll think of you, my friend
Until we meet again

Oh, oh oh oh
Oh oh oh, oh oh, oh oh
Oh, oh oh oh
Oh oh oh, oh oh, oh oh
Oh, oh oh oh
Oh oh oh, oh oh, oh oh
Oh, oh oh oh
Oh-oh-oh

Until we meet again
I'll think of you, my friend
Until that bitter end
Until I see your face again
My broken heart would mend
When we meet again
I'll think of you, my friend
Until we meet again

Until we meet again
Until we meet again
Until we meet again
Until we meet again

I'll think of you, my friend
Until we meet again
