

## Alibis

Blaze Foley

You kept your secrets and told me lies  
And all your reasons were alibis  
You say you're sorry and I'll agree  
But you're not bothered it's plain to see

Trustin' you undid my heart  
Your fool completely from the start  
Yes since we met your fool's complete  
Oh, that's the talk out on the street (and I know that)

You made me promises, you made the rounds  
How many others have you made clowns  
How many hearts have you gone thru  
Tore apart and broke in two

You kept your secrets and told me lies  
And all your reasons were alibis  
You say you're sorry and I'll agree  
But you're not bothered it's plain to see  
And I know that

You kept your secrets and told me lies
