

Darlin'

Blaze Foley

Darlin', oh darlin'
Way over yonder, I'm alone
And I need you, oh I need you
Come on home, come on home

Every morning, every morning
I reach out for you, I reach out for you
But you're not there, no you're not there
What shall I do, what shall I do

Nights are lonely, so lonely
All by myself, all by myself
Won't you own me, won't you own me
Nobody else, nobody else

Come back to me, come back to me
It's been too long, been too long
Got to soothe me, come and soothe me
Hear this song, you got to hear this song

Darlin', oh darlin'
Way over yonder, I'm alone
Oh darlin', oh darlin'
Come and hear my song, come and hear my song
Come and hear my song, come and hear my song
