

# Long Gone

Blaze Foley

Only kind of song that I can sing is a blues song  
When everything is wrong ain't no happy song  
Just a blues song

I mess around again got to hook [?]  
I don't wanna die a-drownin' so I guess I better swim  
You're gonna wish some day I'll be back your way  
I'll be long gone

When I give myself I give all of me  
And you may not believe me, baby, but you wait and see  
You're gonna wonder where I am someday but you won't know

I got ants in my britches been turning pretty women down  
I know I may be funny don't you treat me like a clown  
You're gonna wish some day I'll be back your way  
I'll be long gone

Love you have for me hides where I won't see it  
But I see it  
I know I could be wrong I keep hangin' on  
Cause I feel it

Why don't you quite closin' up your door and let me stay with y  
ou  
I know I may be crazy but my love is true  
You're gonna wish some day I'll be back your way  
I'll be long gone
