

Where Are You Now My Love

Blaze Foley

Where are you now my love
That's what you are to me
Did I scare you away
By telling you so

Was a total surprise to me
Falling in love that way
From out of nowhere
Like it fell from the sky

I had to let you know
Is that what's keeping you away
I won't ask for anything
That don't come from your heart

You don't feel any love for me
Oh, I won't need your sympathy
No, I don't want anything
That don't come from your heart

Where are you now my love
That's what you are to me
