

Get It Lit

Blaze Ya Dead Homie

Don't say shit when a real one speaks
Go ahead pop that bottle and we playing for keeps
Bet you in this shit deep 6 ft specifically
If you tryna kill my buzz you done fucked up cuz
Get it lit go on and pour that shit
Fill up another cup of that Louis 13
You know them ones in off white an supremes
They know gangsters do what they want to
So I'ma keep doing what you won't do
Stay drinking everyday with the crew thought you knew
Tip the whole fifth get loose on the Louie
An' cut up an breakdown, an' roll up the philly
Put that weed smoke up in the air
Get it lit
Cause we about to get fucked up in here
Get it lit
I even got my 40 oz of beer
Get it lit
Now watch as I make it disappear

Light that shit up
Turn that shit up
Pour up a cup
Let's get lit up
If ya looking for a spark tonight
To set the club on fire
This beats the gas
And these vocals are the light
"Get it lit"
Set the club on fire
Set the stage on fire
Set the bar on fire
"Get it lit"
Light that shit up
Turn that shit up
Pour up a cup
Let's get lit up

I been drinking and smoking
Bong ripping and toking and
Long sippin', bar open
More rounds drink chosen
Serve em up
Counter taps, push it back
Blunt rolling I gotta sack
From a homie that had a rack
And he stacked until he had big bank
Pushed weight
Sold dank
Flipped chronic
Went loud, been on it
Shit stank like my aroma
Sippin and smoking
A graduate I gotta diploma
Stretching and sweating
Like Pilates and yoga
More of a hot mess

Like hell is my address
I'm only interested in the best
And the rest is not important to me
Living in happiness and unfortunately
I make believe like this is
How it's supposed to be
I'm an annihilator
Keeping it green like alligators
Gimmie flavors like now and later
I'm Twiztid, blew back
Let's hit the vapors
Endorsed carts for G pens
We been best friends
Bloody Brothers
For a hundred summers and weekends

Light that shit up
Turn that shit up
Pour up a cup
Let's get lit up
If ya looking for a spark tonight
To set the club on fire
This beats the gas
And these vocals are the light
"Get it lit"
Set the club on fire
Set the stage on fire
Set the bar on fire
"Get it lit"
Light that shit up
Turn that shit up
Pour up a cup
Let's get lit up

I stay lit on that shit
I stay on top
Everyday all the time
Not gonna stop
I stay lit on that shit
I stay on top
Everyday all the time
Not gonna stop

Light that shit up
Turn that shit up
Pour up a cup
Let's get lit up
If ya looking for a spark tonight
To set the club on fire
This beats the gas
And these vocals are the light
"Get it lit"
Set the club on fire
Set the stage on fire
Set the bar on fire
"Get it lit"
Light that shit up
Turn that shit up
Pour up a cup
Let's get lit up

Light that shit up
Turn that shit up

Pour up a cup
Let's get lit up
If ya looking for a spark tonight
To set the club on fire
This beats the gas
And these vocals are the light
"Get it lit"
Set the club on fire
Set the stage on fire
Set the bar on fire
"Get it lit"
Light that shit up
Turn that shit up
