

Summer Breeze

Blaze Ya Dead Homie

All the times that I spent with you
From the early summer afternoons
To the mid summer barbecues
With the windows rolled down feel the bass
From the good tunes in the sun
Hot tagged the moon in the summer breeze
Was so easy to lose I kept on
With the whole season fuck em give em reason to keep breathing
Not too brisk
Don't want y'all to slip like so many others did
Not much of a cool kid
But more of a school kid
Went to the whole shit
Graduated center of the class
Move from a shirt to a pimp right fast
Kept it breezy though
Every summer on the come up
Little gain to the growth
Just like a summer breeze
Real nice steady slow
Feel it thru the porch door
Go on let the wind blow
And let em know why you here for

Hey yo it's in my veins deep inside my DNA
Born to the streets till I'm DOA
Blessed with the struggle don't sweat it just say
Blessed with the struggle don't sweat it just say
Yo it's in my veins deep inside my DNA
Born to the streets till I'm DOA
Blessed with the struggle don't sweat it just say
Blessed with the struggle don't sweat it just say

They say life's too short but what do they know
They don't care about life no more
There's 10 millions reasons to care
Which one do you pick when it's your turn to turn up
When it's your turn to turn up
There's 10 millions reasons to care
Which one do you pick when it's your turn to turn up

I'm not the only one here to feel like this
I'm not the only one here to feel like this
I feel alone tryna fix this shit
I'm not the only one here to feel like this
The only one here to feel like this
I'm not the only one here to feel like this
I feel alone tryna fix this shit
Not the only one here tryna feel like this

Hey yo it's in my veins deep inside my DNA
