

# Weight Of It All

Bleach

There's not much to say when you  
Consider the weight of it all  
There's no second chance  
To go back and to fix what went wrong

We are just lost here  
There is no path now that you're gone  
And there is no map that can show us the way  
So we can move on

There's not much to say when you  
Consider the weight of it all  
There's no second chance  
To go back and to fix what went wrong

And we are so lost here  
There is no path, you're gone  
And there is not map to  
Show us the way  
So that we can move on  
Move on

Jesus keep us closer than ever before  
Jesus keep us closer than ever before  
(Hallelujah this is not our home)  
Jesus keep us closer than ever before  
Jesus keep us closer than ever before  
(Hallelujah this is not our home)
