

# You

**Bleach**

I don't think my heart can take it  
Another empty day might break it  
I need you more than ever before  
I found out what it is I'm missing

You

I know Your heart can barely take it  
To see me grab this day and break it  
I need You more than ever before  
I found out what it is I'm missing

You be the psalm writer  
And I will be Your psalm  
You be the songwriter  
And I will sing Your song
