

Wake Me

Bleachers

Right from the start I knew
You'd set a fire in me
And I'd rather be sad with you
Than anywhere away from you

And hey
I can't believe I captured your heart
Oh whoa oh
I can't believe I captured your heart

Stake my life on it
If somebody's gonna quit
Then I'd rather be sad with you
Than with any other girls but you

And hey
I can't believe I captured your heart
Oh whoa oh
I can't believe I captured your heart

If you're lonely lonely lonely wake me
I can't believe I captured your heart

Right from the start I knew
You'd set a fire in me
And I'd rather be sad with you
Than anywhere away from you

And hey
I can't believe I captured your heart
Oh whoa oh
I can't believe I captured your heart
