

## A Killer Born

### Bleed from Within

Born and bred to eradicate  
The infection is in your veins  
Cursed by the need to kill the mistake  
You annihilate  
Does this satisfy  
Your need as you feel the blood of the innocent pent  
You are the disease of humanity  
The definition of a killer  
This kill becomes a sanctuary  
A killer born is what we have  
This kill becomes a sanctuary  
A killer born  
Embedded into your mind  
A massacre has arisen

All our war will last for all eternity  
As you are a ghost in the night  
And your traces are unseen  
With each corpse you send a message  
"I will judge the ends of the earth"  
Your victims taste your anger  
As you lead them to their death  
So proud of your sick  
Twisted work  
You seek your next f\*cking pray  
Your day will come  
A killer born
