

# Alive

## Bleed from Within

Lie awake in a dream, drag me far away  
Your eyes they come to life as you feed off the weak

Strength in the numbers  
It's all they see of you, nothing more  
Materialistic minds  
Tell me do you feel alive?  
You're searching for yourself  
In a strangers eyes  
Living in a world that vanity buys  
Humanity has crossed the line

This is how it ends  
Weakness in me  
I wear on my sleeve  
Offer your true light to the world  
Weakness in you  
A taste of the truth  
This mask you wear will slip away  
And all will become clear

Turn away from the screens  
Tell me how does it feel  
Depression comes in waves  
When things start to feel real

I'm holding on to the hope that we can change our ways  
Materialistic minds  
Tell me do you feel alive?

A withering sense of self became my home  
Now I'm living with the enemy

We will not walk, we will not crawl  
In a world of empty souls  
Is this the means to an end?  
Annihilation
