

## Chained to Hate

## Bleed from Within

Destroy all you know  
A mindless bigot in today's shit show  
No morality, society is struggling  
Into the fire below

Take note, there's a lesson to learn  
This world won't last with you in it

Chained to hate  
Not enough to suffocate  
I see no punishment  
Fit for the crime

Chained to hate  
Not enough to suffocate  
I'll set the timer myself  
Blow it all to hell

Take to the streets  
You think you are elite  
But in reality, prepare to face defeat  
There is nothing between you and me  
Except the promise of supremacy

Yeah, except the promise of supremacy  
There is nothing between you and me  
You revived the tyrant  
And I'll protect the weak

Is there something between you and me?  
A fucking hammer is the savior  
Prepare to hang for your hate

Take note, there's a lesson to learn  
This world won't last with you in it  
I hope you get what you fucking deserve  
This world will burn if you let it

Chained to hate  
Not enough to suffocate  
I see no punishment  
Fit for the crime

Chained to hate  
Not enough to suffocate  
I'll set the timer myself  
Blow it all to hell

You lit the fire on foundations of hope  
Reflections, they invoke me  
And I will walk to you  
I will tie the rope myself  
I will fucking hang you  
I will fucking end you

Venomous  
Dead to us

Fight for your life  
There is no place for this  
It's worthless  
The ruins of empire  
Leave no space for you
