

Gatekeeper

Bleed from Within

Suffocate my sickness
Drown it out in a crowd gone mad
White mask of condemnation
Serves the past of this great nation

Sent for the wealth within
What did we do to deserve this endless reign of disdain?

The end is nigh
All of our hatred, use it against us
Read me the rites of our ignorance
The sky alight
Forced from their home on this long road of bones
Into the arms of the gatekeeper

Stand witness to the violence
Bide time and plan my revenge
I am pain, I am fear
I am the cause of all their anguish and tears
Void of compassion
I will end this oppression

Sent for the wealth within
What did we do to deserve this reign of disdain?
I have come for your life

The end is nigh
All of our hatred, use it against us
Read me the rites of our ignorance
The sky alight
Forced from their home on this long road of bones
Into the arms of the gatekeeper
Into the arms of the gatekeeper

Evidence is washed ashore
I turn to a preacher of hate
Suffer the vengeance

Justice is served
Strapped to my chest
Families are stranded
The world in distress
Martyrs are carved from this campaign of hate
The system collapses and so does their faith

The truth is a myth that the world won't survive
Into the arms of the gatekeeper
The sickness will thrive
