

# I Am Damnation

## Bleed from Within

They can't keep dragging us down  
We fought tooth and nail to get here  
No, they can't keep dragging us down  
We are the ones they fear

They can't keep dragging us down  
We fought tooth and nail to get here  
No, they can't keep dragging us down  
We are the ones they fear

Fight it

Back again, once more round the sun still breathing  
You know you'll never see the end of this  
There's a grave with your name I'm still digging  
I've seen the sins, you made the list  
So be careful what you say to me  
Because I've got no limits  
Just an axe to grind  
True spirit like this is hard to find

We were taught to believe  
They put a price on our dreams  
I'm sick of it all  
In front of us  
A statue of trust  
Yet still I fear the worst

For I am damnation

Incompetent, the way I used to view myself  
But now I see the world for the way it is  
So here I stand before you all  
With a point to prove  
And nothing to lose  
So be careful what you say to me  
Because I've got no limits  
Just an axe to grind  
I found solace in the struggle, a reason to live  
Now this is all that's left of me

Now this is all that's left of me

It feels like I'm marching to the edge of the earth  
Transcending illusions that have held me for years  
Acceptance of the life I've led  
Breaking out of my head  
This is my world  
The kingdom of death

They can't keep dragging us down  
We fought tooth and nail to get here

We were taught to believe  
They put a price on our dreams  
I'm sick of it all  
In front of us

A statue of trust  
Yet still I fear the worst

For this is where I belong  
For I am damnation

Fight it
