

We had a dream but we let it fade
It wasn't meant to be this way
Different eyes but the same perspective
Compromise is the only real change

Here we stand in the midst of it all
A union divided, a kingdom will fall

The freedom to believe
A fight we must succeed
Is anyone listening?

Screaming out but we don't see the effect
Do we accept it? No
Do we believe it? No
No one's giving up, we fight to the end
It's not a question
It's a given

Here we stand in the midst of it all
Amend the broken trail of deadly control
To find our path

Led by the broken on a road to collapse
We need out now
We need out

Screaming out but we don't see the effect
Do we accept it? No
Do we believe it? No

Screaming out but we don't see the effect
Do we accept it? No
Do we believe it? No
No one's giving up, we fight to the end
It's not a question
It's a given

Led by the broken on a road to collapse
We need out now
Or endure the friction in disguise
We need out now
Push the hand until it can't push back
Till we see the structures crack
We need out

Screaming out but we don't see the effect
Do we accept it? No
Do we believe it? No
No one's giving up, we fight to the end
It's not a question
We'll find our path

Led by the broken on a road to collapse
We need out now
We need out
