

# Utopia

## Bleed from Within

We are silent no more, for we have answered the call  
It was a promise of change that's bought us back to the fold  
We could see it, could we conceive it? (Yeah)  
It's a product of everything we believe in

Now it's time to set the record straight once and for all  
This is for the broken, this is the call

I won't break, I've suffered under all this weight  
Continue to defy those opposed and rise above the rest  
I see that we are blessed  
In this Utopia

When the seed starts to grow through the cracks it will show  
That's when the focus will change, no longer bound in stone  
For the first time we could feel it (Yeah)  
It's a product of everything we believe in

A sacrifice was made to end it all  
Now cut the noose and learn to break the fall  
They'll twist the knife but now we're in control

I won't break, I've suffered under all this weight  
Continue to defy those opposed and rise above the rest  
I see that we are blessed  
In this Utopia

I'm born again with a fist full of rage  
To set the record straight once and for all  
This is for the broken, this is our call

I see that we are blessed  
In this Utopia  
Defy those opposed, rise above the rest  
In this Utopia

I see that we are blessed  
In this Utopia  
Defy those opposed, rise above the rest  
In this Utopia
