

## Buried

## Bleeding Through

I am your darkness.  
Light me inside so no one can see.  
Don't you betray me again.  
Despite everything that you believe.

Embrace the loneliness.  
Now inhale this feeling coursing through you.  
Coursing through you.  
Coursing through you.

Close your eyes.  
Now catch the sight of the enemy.  
Rushing hate your veins.  
Infected blood torture and pain.

Embrace the ugliness  
Now exhale this feeling coursing through me.

I am here to destroy you.  
I stand to embrace.  
I am here to bury you.  
What a fucking disgrace.  
What a fucking disgrace.  
Bury you.  
Bury you.

Close your eyes.  
Now catch the sight of the enemy.  
Rushing hate through your veins.  
Infected blood torture and pain.

Embrace the ugliness  
Now exhale this feeling coursing through me.

I am here to destroy you.  
I stand to embrace.  
I am here to bury you.  
What a fucking disgrace.  
What a fucking disgrace.  
Bury you.  
Bury you.  
Fucking bury you.
