

## Cold World

### Bleeding Through

Now do you really think this path will define your bleak existence.

Tooth and nail, hammer and fist. You'll never win.

Heres your life now piss it away.

Over and over again you will see you'll end up just like them.

This cold world. This cold world.

This cold world. This cold world.

Now you will never see reality is persistence.

Tooth and nail, hammer and fist. You'll never win.

Heres your life now piss it away.

Over and over again you will see you'll end just like them.

This cold world. This cold world.

This cold world. This cold world.

Listen here son this world fucking owes you nothing.

You spend it chasing death and you will die with nothing.

Listen here son, you will die with fucking nothing.

Take back my life.

Regret my soul.

Try to save a life.

You'll never win.

Heres your life now piss it away.

Over and over again you will see you'll end up just like them.

This cold world. This cold world.

This cold world. This cold world.
