

Dead Eyes

Bleeding Through

Decide what you fucking stand for.
Broke your faith remain a coward inside.
You have no allegiance.
No where to hide lined in our sights.

Its so disgusting the arrogance that you portray.
Now I'm standing right here.
Welcome to your end of days.
Welcome to your end of days.

Dead eyes brought you here.
Now you pretend its over.
Use me for your despair.
This will end never.
All of your regrets
Will be with you tomorrow.
Use me for your despair.
Bring me, bring me sorrow.

Hate me feed of insecurities.
You'll never be enough to fight me away.
How do you close your eyes at night.
So afraid... Scared your words will die.

Your so disgusting. The arrogance that you portray.
Now I'm standing right here.
Welcome to your end of days.
Welcome to your end of days.

Dead eyes brought you here.
Now you pretend its over.
Use me for your despair.
This will end never.
All of your regrets
Will be with you tomorrow.
Use me for your despair.
Bring me, bring me sorrow.

Dead eyes brought you here.
Welcome to your end of days.
Use me for your despair.
Welcome to your end of days.
All of your regrets
Welcome to your end of days.
Use me for your despair.
Bring me, bring me sorrow.
