

Gallows

Bleeding Through

As we fade consciousness to dust
Our mortality is only left to rust
Set ablaze, betrayal in the darkness that remains
This will end us

I am the keeper of darkness
Carry souls of regret
I inhale all this hatred
And I will kill what is left

Please carry me to the gallows
Accept this offering
Tiny cuts, tiny cuts
Tiny cuts, tiny cuts

Please carry me to the gallows
Accept this offering
Screaming fear until it echoes
Accept this offering

Now you wait to suffer and expire
Immortality, only not enough
Set ablaze, betrayal in the darkness that remains
This will end us

I will carry the sorrow
Devotion to the hollow
I will carry the sorrow
Devotion to the hollow

I am the keeper of darkness
Carry souls of regret
I inhale all this hatred
And I will kill what is left

Please carry me to the gallows
Accept this offering
Tiny cuts, tiny cuts
Tiny cuts, tiny cuts
Screaming fear until it echoes
Accept this offering
Tiny cuts, tiny cuts
Tiny cuts, tiny cuts

Please carry me to the gallows
Accept this offering
Screaming fear until it echoes
Accept this offering

Accept this offering
